U.S. Foreign^{STA/STA} Agricultural Trade Statistical Report, Calendar Year 1982

4175706

A Supplement to
Foreign Agricultural Trade
of the United States

NOTICE

Your subscription to this publication may be due to expire soon. If so, you will get a card in the mail from the Government Printing Office (GPO) notifying you and inviting your renewal. It's the only notice from GPO you will receive about the expiration. To assure uninterrupted service, return it promptly with your renewal check.

SUBSCRIPTION
INFORMATION

Foreign Agricultural Trade of the United States is available on a subscription basis. Six reports and two supplements are published annually. Subscription rates are \$19 domestic; \$23.75 foreign. Send check or money order payable to "Superintendent of Documents" to:

Superintendent of Documents
U.S. Government Printing Office
Washington, D.C. 20240.

U.S. FOREIGN AGRICULTURAL TRADE STATISTICAL REPORT, CALENDAR
YEAR 1982. A SUPPLEMENT TO FOREIGN AGRICULTURAL TRADE OF
THE UNITED STATES. International Economics Division, Economic
Research Service, U.S. Department of Agriculture.

ABSTRACT

This statistical reference presents current and historic analytical data on U.S. foreign trade in agricultural products. Detailed tables cover commodity and country information for 1981 and 1982. Statistics for 1982 are preliminary.

SPECIAL NOTICE

This statistical reference presents analytical tables showing current and historical data on U.S. foreign trade in agricultural products. Detailed tables cover commodity and country information for the most recent 2-year period. Statistics for calendar year 1982 are preliminary.

U.S. foreign agricultural trade statistics in this report were derived from official data released by the Bureau of the Census. Agricultural commodities are defined as (1) nonmarine food products and (2) other products of agriculture which have not passed through complex processes of manufacture, such as fibers, raw hides and skins, fats and oils, beer, and wine. Such manufactured products as textiles, leather, boots and shoes, cigarettes, naval stores, forestry products, and distilled alcoholic beverages are not considered agricultural.

Exports

The trade statistics exclude shipments between the 50 States and Puerto Rico, between the 50 States and the island possessions, between Puerto Rico and the island possessions, among the island possessions, and intransit through the United States from one foreign country to another when documented as such by the U.S. Customs Bureau.

The export data in this report include "exports of domestic merchandise," defined as commodities grown, produced, or manufactured in the United States, and commodities of foreign origin which have been changed from the form in which they were imported. The export value is generally equivalent to a free-alongside-ship (f.a.s.) value at the U.S. port of export, based on the transaction price including inland transportation, insurance, and other costs incurred in placing the merchandise alongside the carrier.

Agricultural exports under specified Government-financed programs (table 5) include shipments under Public Law (P.L.) 480 programs, authorized by P.L. 83-480 as amended; and AID programs, authorized by P.L. 82-165, 83-665, and 87-195 as amended. Commercial exports include, in addition to unassisted commercial transactions, shipments of some commodities with governmental assistance in the form of (1) extension of credit guarantees for relatively short periods repayable in dollars plus interest by USDA's Commodity Credit Corporation, and (2) Export-Import Bank loans and medium-term loan guarantees. Apparent excesses of exports under specified Government programs over total exports, which result in negative values in the column "Agricultural exports outside specified Government programs," may be due to lags in reporting, differences in valuation procedures, or recording the export as destined for the country through which a transshipment occurred.

In commodity group-by-country data (table 6), 7-digit Schedule B commodity codes were summed to group totals. Each country listed under the groups accounted for 0.3 percent or more of the commodity group's export value except for wheat, rice, feed grains, grains and preparations, corn, wheat and wheat products, grain sorghum, wheat and wheat flour, feed grains and products, and nonfat dry milk.

Commodity-by-country data (table 7) are printed at the 7-digit Schedule B commodity code level. Statistics on commodities valued under \$1 million are not shown, but are available for reference in the World Analysis Branch, International Economics Division, Economic Research Service, U.S. Department of Agriculture. So-called "basket" classifications (28 commodities) were excluded because they consist of diverse items.

Imports

Import data consist of "imports for consumption," representing entries for immediate consumption and withdrawals from bonded warehouses. The import value is defined as the "Customs value," based on the foreign market value, export value, or constructed value, and excludes import duties, freight, insurance, and other charges incurred in moving the commodity to the U.S. port.

Imports similar to agricultural commodities produced commercially in the United States and others that are interchangeable in use to any significant extent with such U.S. commodities are termed supplementary or partly competitive. All other commodities are considered complementary or noncompetitive.

In commodity group-by-country data (table 14), 7-digit TSUSA commodity codes were summed to group totals. Countries listed under each group accounted for 0.3 percent or more of the commodity group's import value with the following exceptions: Bananas, green coffee, cocoa beans, crude rubber, pork, and raw sugar were listed if they accounted for 0.1 percent or more.

Commodity-by-country data (table 15) are printed at the 7-digit Schedule A commodity code level. Basket classifications (31 commodities) were excluded. Countries listed under commodity headings were selected as follows: (1) commodities having an import value from \$1 million to \$5 million show countries accounting for 5 percent or more; (2) commodities with import values from \$5 million to \$20 million show countries accounting for 2 percent or more; (3) commodities with import values of \$20 million to \$50 million show countries accounting for 1 percent or more; and (4) commodities valued over \$50 million show countries accounting for 0.3 percent or more. The value of imports from "other countries" represents the difference between the commodity total and the sum of those from designated sources.

1/ EXCLUDES LIVE ANIMALS AND HIDES AND SKINS.

2/ INCLUDES FLOUR, BULGAR AND ROLLED WHEAT. NOT CONVERTED TO GRAIN EQUIVALENTS.

3/ INCLUDES SOYBEANS, SUNFLOWER SEEDS, PEANUTS, COTTONSEEDS, SAFFLOWER SEED, FLAXSEED, AND NON-DEFATTED SOYBEAN FLOUR.

4/ INCLUDES VEGETABLE WAXES.

5/ EXCLUDES FRUIT JUICES.

6/ PRIMARILY FEEDS AND FODDERS, GRASS AND VEGETABLE SEEDS, AND BLENDED FOOD PRODUCTS.

If Your Business is Oils... You Need These Reports

Statistics on Oilseeds and Related Data, 1965-82 (\$5.00; 72 pages; SB-695). USDA's latest annual estimates on production, stocks, disposition, exports, imports, and prices. We've done the legwork for you by culling these statistics from diverse sources and putting them in a convenient one-volume format. The numbers represent the most accurate assessments of Government and private sources, including the Departments of Agriculture and Commerce, the Institute of Shortening, the Chemical Marketing Reporter, and the National Provisioner Report.

More than 100 tables give you the breakdown for cottonseed, flaxseed, linseed, peanuts, soybeans, sunflowers, and edible fats and oils.

U.S. Peanut Industry (\$4.75; 52 pages; AER-493). A comprehensive picture of the last three decades of peanut production, consumption, and world trade. The United States accounts for about 10 percent of world exports of peanut oil and is the third largest producer of peanuts (behind

India and China). With 10 figures and more than 30 tables, the report tells you:

- Major markets for peanut exports.
- Primary uses for different peanut varieties.
- Causes of yield increases over the last 30 years.
- Major production and marketing practices.
- Effects of Government programs on peanut farmers.

To Order These Reports . . .

Write to *Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402*. Make your check or money order payable to *Superintendent of Documents*. You can charge your order on VISA, MasterCard, or with a GPO deposit account; call GPO's order desk at (202) 783-3238. No additional charges for postage to domestic addresses; but foreign addressees, please add 25 percent extra. Bulk discounts available.
